

## **T/CCI and QUE Products secure contract to supply parts for Afghanistan military vehicles**

### ***Companies to produce and distribute compressors for more than 6,000 M-ATV units for U.S. military***

DECATUR, IL – October 12, 2009 - T/CCI Manufacturing LLC., and affiliate QUE Products, global leaders in the design, production and distribution of heavy duty air-conditioning compressors, will be supplying units for as many as 6,400 M-ATVs for the United States military in Afghanistan. Through a contract with Red Dot Corp., the companies will supply compressors for HVAC units used in new all-terrain vehicles manufactured by Oshkosh Corporation.

“This is a great opportunity for both T/CCI and QUE, and we’re proud to be a part of a project that supplies quality equipment to our armed forces,” Vice President of Sales and Engineering Richard Demirjian said. “T/CCI has a dedicated research and development facility in Decatur, Illinois that continuously strengthens our technology and products, securing our reputation as a leader in our field. We take pride in our fast response time and quick production so we’ll be ready to meet the Pentagon’s demand to have a portion of the order or about 2,200 units ready by the end of the year.”

The climate control compressors will be used on Oshkosh’s M-ATV’s which stands for Mine Resistant, Ambush Protected All- Terrain Vehicle. T/CCI also produces compressors for Navistar’s MaxxPro MRAP (Mine Resistant Ambush Protected) and Force Protection’s Cougar and Buffalo MRAP vehicles used by military forces in Iraq and Afghanistan.

Wisconsin-based Oshkosh Corp. was recently awarded a large government contract to build the heavy duty all-terrain vehicles for the U.S. military. The contract is helping to stimulate the jobs market, increasing production from suppliers like Red Dot and T/CCI.

#### **About TCCI Manufacturing LLC.**

T/CCI is a global leader in the manufacturing of heavy duty compressors and clutches for the mobile air-conditioning and refrigeration industries. With manufacturing sites in China and Decatur, Illinois, T/CCI provides the industry with the latest in innovative compressor designs. T/CCI provides quality, dependable and environmentally safe compressors that are built to last.
